Find a Provider in Three Easy Steps

To locate providers participating in the PHCS and/or MultiPlan Networks, visit www.multiplan.com/upmc. Then, follow these three easy steps to identify your providers of choice.

Step 1: Provider Type. Choose between Doctor and Facility. Then read and acknowledge the conditions that apply to this online search tool.

Depending on your health plan, the provider you select may not be available and the services you need may not be covered. Before scheduling an appointment, you should always follow these two steps.

Step 2: Refine Provider Criteria. You will see one of the two forms shown below, depending on the type of provider chosen. Location is required and must be entered as one of the following combinations: zip code plus distance, city plus state, or county plus state.

Click here to also specify gender, languages spoken and hospital affiliations.
Finding a Doctor or Facility

Step 3: Results. Providers matching your search criteria will be displayed on the page(s) to follow. Move from page to page by clicking on the page number or Previous and Next arrows. Results are displayed in random order, but you can re-sort them by clicking on any underlined column heading.

Click on the name to see more detail about this provider.

A Printer Friendly icon is available for easy viewing of your search results on a printed page. You may print the listed providers or the details for a specific provider. Simply click on the Printer Friendly icon, send the results to your printer, and then close the window.
