Participating Vision Providers may charge a member copayment for optional lenses and treatments listed below. Participating Vision Providers include in-network providers who choose to utilize an out-of-network laboratory.

²Out-of-network reimbursement is based on usual, customary, and reasonable as determined by UPMC Vision Care. Nonparticipating Vision Provider's may bill the patient the difference between the provider's billed charges and the plan allowance.

³Lens reimbursement includes reimbursements for polycarbonate lenses.

⁴ Provider may also make available non-collection frames. Non-collection frames are frames that are any amount over the retail allowance amount for collection frames. If non-collection frames are chosen, members are responsible for the difference in cost between the retail allowance amount for collection frames and the retail price of the frame minus a 20% discount.
