5. Payment can be made on a monthly, recurring basis via a credit or debit card, or through a checking or savings account

Academic Appointments
Graduate students who hold an academic appointment (GSA, GSR, TA, or TF) should select the $0.00 payment option for medical coverage.

If this payment option is not available, contact your academic department before proceeding with enrolling.

International Students
International students are required to attest to having other United States-based medical insurance coverage or enroll in a University-sponsored program.

To attest to other coverage, an Acknowledgement of Insurance Coverage must be submitted. You will need the insurance company’s name, address, and telephone number; the policy or group number; the effective date of coverage; and confirmation that the insurance meets the minimum coverage requirement.

International students must submit their attestation no later than September 30, otherwise a hold will be placed on your account.
