If this payment option is not available, you should contact your academic department to update the academic appointment info. Enrollment can be completed once the \$0 monthly cost medical option is available.

International Students

International students are required to attest to having other medical insurance coverage or enroll in a University-sponsored program.

To attest to other coverage, an Acknowledgment of Insurance Coverage must be submitted. You will need the insurance company’s name, address, and telephone number; the policy or group number; the effective date of coverage; and confirmation that the insurance meets the minimum coverage requirement.

International students must submit their attestation no later than October 15, otherwise we reserve the right to place a registration hold on academic accounts for international students that do not take any action. A registration hold will prohibit registration for future classes or graduation.
