Did the school or district provide this device?   Yes   No

type of device will your child be using? Please check

Laptop   Chromebook   Tablet   Smartphone   Other (please specify)

_____

What is the brand of the device? (e.g. Apple, Dell, Samsung, etc.)

_____

What is the model? (e.g. iPad 4, XPS, etc.)

_____

What is the MAC Address? (See https://www.cmu.edu/computing/services/endpoint/network-access/wireless/how-to/mac-address.html for help finding this.)

_____

What is the version of the Operating System?

_____

If this device will be used for videoconferencing, what tools will they use on this device?
Please check all that apply

Zoom   Microsoft Teams   Google Meet   Skype   Slack   Other (specify)

Please list all applications on this device that your child will need to use during the proctoring sessions:

Parents/guardians are primarily responsible for the support of their child's technology. Due to school and district policies and health protocols, proctors are only able to provide basic support and coordinate general network questions. Parents/guardians will need to be prepared to work with technical support from the school if necessary as most districts will not work with individuals other than the parent/guardian.

After submitting you registration, you will receive instructions and a code to access the CMU-GUEST Wireless Network.
